Professional Summary

Results-driven **MERN Stack Developer** with a strong foundation in full-stack development using **MongoDB, Express.js, React, and Node.js**. Adept at building scalable web applications, RESTful APIs, and responsive UIs. Passionate about delivering impactful digital solutions and collaborating with cross-functional teams.

Key Highlights

- Built and deployed 6+ full-stack projects using the MERN stack
- Implemented JWT authentication and CRUD operations across all major apps
- Integrated Stripe and Firebase for payment and real-time functionality
- Optimized MongoDB queries to reduce API latency by 40%

Skills & Technologies

Languages: JavaScript (ES6+), HTML5, CSS3
Frontend: React, Next.js, Bootstrap, Tailwind CSS
Backend: Node.js, Express.js
Database: MongoDB, Firebase
Tools: Git, cURL, Postman, VS Code

Certifications

MERN Stack Development – Expertizo University (2023 – 2024)

Professional Experience

Freelance MERN Stack Developer (2023 – Present)

Developed full-stack web applications for clients, including e-commerce, admin dashboards, and social media platforms. Collaborated with designers and backend developers to ensure seamless project delivery. Deployed applications on Vercel and Netlify with CI/CD integration.

Major Projects

- **E-Commerce Website:** MERN store with product listings, JWT-auth, and Stripe payments. [Live](#) [GitHub](#)
- **Social Media Platform:** Real-time post/like/comment system. [GitHub](#)
- **Expense Tracker:** Monthly/yearly tracking with local + backend sync. [Live](#) [GitHub](#)
- **To-Do App:** CRUD operations, login/signup using MERN. [Live](#) [GitHub](#)

Education

BSCS – Federal Urdu University (2024 – Present)
Intermediate – Superior College Jahanian (2018 – 2020)

Interests

Open-source contribution, scalable system design, continuous learning, and coding challenges
